Disappointing, though I guess it does what it says on the packet.  
The wordings are too American - do I really want my African Grey parrot in England reciting the first line of the Gettysburg Address?  
I played the CD once, and I and Charlie were bored with it within a couple of minutes. I have now binned it - waste of money as far as I am concerned.  
Having said that, Charlie talks non-stop anyway. This might have been a useful product for a young parrot just learning to talk.

My dog's favorite toothpaste! Every night he comes upstairs to "have his teeth brushed" and won't go to bed until this demand is met. He only likes this brand. Funny boy!

Reviewed in the United States on February 4, 2019

Size 5 lbs - [Verified Purchase](#)

I bought this product for my backyard chickens. They seem to love it....but the smell when I open the bag makes me want to gag.... It is so obnoxious (to me) that I literally have to put a respirator on to even open the bag which makes me feel a bit silly. It doesn't smell rotten or anything. It just has a peculiar smell that I find overwhelming and stomach turning (and no, I don't have a sensitive nose!). Others may say it doesn't bother them at all.

This pump was an obnoxiously loud and oversized pump with a bizarre shape. I almost immediately replaced it with one bought from a local pet smart because I didn't want to listen to it. I'd probably give that one just 2-3 stars because unless it's sitting just perfect it's also loud an obnoxious.

We have been ordering bird toys for over 26 years from a company made in the USA and this is the first time we had ever ordered one made in china. The smell was so bad it was nauseating and gave us a headache and had to throw it out after 3 days of hanging it in our bird room, our birds would not touch it. Waste of money.

This is my dog's favorite toy. She plays with it, sleeps with it, and unfortunately, disembowels it. But continues to carry around the destuffed, desqueakered carcass of poor Lambchop. So every time I have an Amazon order, I add one of these on so Sunny can continue to have a fresh "lammie" toy. She has three so far, in various stages of decay, and eventually will have quite the collection. She still carries her first one, which has been reduced to hole riddled fabric and nothing else, to bed with her each night, and covers it up in her blanket.

A decent price for fish food that's delivered to our door, we only have two fish so this will last us a long time, our goldfish seems to like it and oddly enough i have found some that they don't like.. (for example one of the brands that Wilko stocks they don't seem to eat..Who knew fish were fussy?) and as they are the ones eating the fish food..that's what counts. I have loads left and i purchased this a while ago, but when i do run out i won't hesitate to purchase more in the future.
